

Sanpete Sanitary Landfill Cooperative

General Public Information

January 25, 2025

White Hills and Chester Landfills are owned and operated in a cooperative agreement between the 13 cities and towns in Sanpete County and Sanpete County as the 14th member. The “Coop”, as it is established, is not a taxing entity, does not receive tax collected dollars. **The “Coop” operates solely on the fees paid for waste that is delivered, placed and compacted at the landfill.**

Waste is paid for by one of two methods: Payment of a fee, or payment for tonnage.

1. Household waste that is picked up from the 90 gallon black garbage cans is paid for from the landfill fee portion paid by the citizens to their city on a utility bill or from Rocky Mountain Power. Some cities utility billing includes a “landfill fee” and the carrier cost to pick and deliver the garbage to the landfill. Some cities utility billings only include the “landfill fee”, and the carrier bills the citizen for the garbage pick up separately.
 - a. The Carrier also provides the 90 gal cans as part of his service.
 - b. The carrier does not pay for this tonnage he picks from households and delivers to the landfill. The “landfill fees” pool of money paid by citizens should not be used to provide free benefits to a selected few.
2. Waste picked up by a waste carrier from any 3 cubic yard cans or larger placed at apartment complexes, businesses, churches, schools, hospitals, construction sites, or residential community groups in a joint dumpster is billed for the tonnage at the time of delivery to the landfill.
3. Any private citizen, business, public entity, farmer or rancher who chooses to collect and deliver their own waste to the landfill in a private vehicles, trucks, trailers and dump trailers is billed for the tonnage at the time of delivery.

Rules for Delivering waste to the landfill.

1. All vehicles must weight in and weight out. Driver is responsible to position vehicle on scales.
2. All persons must show drivers license and proof that waste originated in Sanpete County
3. Household, Construction and Demolition, Metal, Tires, Batteries and Plant Life **MUST BE SEPARATED** and dumped in designated areas. If you have any questions, please ask the landfill workers.
4. All Large items which contain metal, wood products must de-constructed with metal separated or metal will not be credited at no costs.
5. Vehicles, ATV, lawnmowers, trailers must include title and have tires removed
6. **ALL LOADS MUST BE SECURED! LOADS NOT SECURED WILL BE CHARGED \$10.00!**
7. **APPROVED PAYMENT METHODS:** CREDIT CARD: (Mastercard or Visa) or with a credit account approved by the Landfill Administration.
8. Out of County Contractors must establish an account for a specific in county project to receive the in county rates.
